1 Introduction

CRYT Token is our vision for an easy, fast, secure payment system for everyone.

To most people, like simplicity, we have studied CRYT to make it as simple as possible, through some TRON Wallet APP, you can receive and send CRYT in a fast and secure way, the transactions arrive in a few seconds and for us this is the basis for a payment system that can be used by everyone.

Always a click away on smartphones and always with you.

Our idea is to change the way we pay in everyday life.

Just Freeze some TRX and never Pay transfer Fees!

2 Supply

C RYT is a TRON Token with Max 126.5 Million Supply.

3 Projects

3.1 CRYT Merchants

CRYT Merchants is a web application, where stores can request payments in CRYT.

By entering your CRYT address, amount and what it refers to, the application generates a qr code and calculates how many CRYTs will be received, calculated according to the currency and amount selected.

Who pays, only has to scan the QR code generated with the TRON Wallets application, and enter the required CRYTs, after sending, the Merchant receives the amount in a few seconds and the payment is complete.

Useful for daily payments, compatible, with all browsers, smartphone and immediate.

Support for many different currencies, including Dollars, EURO, Rubles and others.

Calculation in real time based on the market price.

CRYT Play is a gaming / betting platform where you can win CRYT by aiming for CRYT and playing in an easy and intuitive way.

In the project there are other games, for a fun and profit where the CRYTs are the main currency of deposit and withdrawal.

Also in the gaming and betting market we want to enter and remain for a unique involvement in the genre.

CRYTBuy, with CRYTBuy you can buy CRYT with VISA Mastercard and American Express cards in a simple and safe way.

Only a few seconds to buy CRYT based on market value and receive them in your CryTrEx.com profile, from there you can then transfer them to your mobile wallet.

4 Future Projects

Those described are only the first projects we are working on, our goal is to give everyone a real and form of payment different from the usual methods, much more varied, unique, fast and safe.

You are your bank, no commission, sending and receiving within seconds between users, quick payments when you buy goods of all kinds.

Other incoming projects will be evaluated according to the requests we receive, what the market demands and what people want in the easiest and safest way possible.

This is the CRYT Coin! Easy, Fast and Safe.
